### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 10 and 17 have been amended to recite compositions consisting essentially of the specified components in the recited weight percents. The "consisting essentially of" language in combination with the specified components in the specified weight percents set forth in the amended claims is considered to distinguish over the prior art of record and otherwise known to the examiner. See applicant's remarks on pages 7-9 submitted 04-22-2004 for a detailed discussion of the differences between the instantly claimed compositions and those in the cited prior art.

The following references are cited as art of interest. Nakagawa et al (5,250,349) is equivalent to WO '503 already of record. Jackson discloses adhesive blends for polystyrene comprising ethylene/vinyl acetate and impact modified polystyrene and a functionalized SEBS block copolymer. Lee (4,861,677) discloses coextrudable adhesive for polystyrene comprising ethylene vinyl acetate copolymer, modified ethylene vinyl acetate copolymer, impact-modified polystyrene. Kiang et al (5,367,022) disclose grafted polymeric products for adhesive blends.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan W Berman whose telephone number is 571 272 1067. The examiner can normally be reached on M-F 9:30-6:00.
